## Petition to the Government of Canada

**Whereas:**

- For many weeks #TrudeauMustGo, has been one of the top trending hashtags on Twitter;
- In September 2022, more than 500,000 people used the #TrudeauMustGo hashtag, where people described their concerns about the Prime Minister including his divisive comments and attitude toward Canadians who've made different health decisions;
- The Prime Minister has passed laws including Bills C-48 and Bill C-69, the 'No More Pipelines Bill', which has canceled many energy projects while driving away projects because of excessive regulations;
- This Liberal government has generated more debt than all the previous Canadian governments combined;
- The Liberal Carbon Tax continues to drive up prices and punishes Canadians who have to drive for work, school and groceries; and;
- The Prime Minister has had many scandals including SNC-Lavalin, Billionaire Island, WE Charity, a \$ 6,000-a-night hotel room, the \$54 million-dollar ArriveCan App, along with concerns about his inaction on foreign election interference.

Therefore, we, the undersigned, **citizens and residents of Canada**, call upon the Prime Minister to resign from office immediately.
