

PETITION TO THE HOUSE OF COMMONS

We, the undersigned citizens and residents of Canada, draw the attention of the House of Commons to the following:

Whereas:

- The Liberals imposed carbon tax will continue to drive up the cost of home heating for Canadians;
- In Canada heating your home in the winter isn't a luxury — it's a necessity;
- After eight years of this Liberal government Canadians now must decide whether to heat their home or put food on their table;
- Never before in Canadian history have Canadians paid more in taxes than under this Liberal government; and,
- Inflation has caused massive increases to costs faced by non-profits and registered charities and further compounded by the carbon tax.

Therefore we, the undersigned citizens and residents of Canada, call upon the House of Commons to:

- 1) Cancel the tripling of the carbon tax on home heating;
- 2) Ensure no new taxes on Canadians;
- 3) Ensure that Canadians are being put first: their family, their paycheques, their home, and their future.
